

## INFO FOR BIDDERS – auction ending and bid extensions

Please see below for important information on what will happen in the last 24 hours of the Auction. Please note that should any Bidders need assistance, Webtron will be on support for the closure of the Auction and Bidders can contact their Technical Support Number on 1300 667 153.

Once we reach the final 24 hours of the Auction, the Date on each of the Lots will transform into a Countdown Clock, with the text turning progressively red the closer the Lot is to its closing time:

The image shows an auction lot card for a horse. At the top left, there is a photo of a rider on a brown horse with a floral wreath. A red banner in the top right corner says "Below Reserve". Below the photo, there is a black box with "Lot 2" and a blue button that says "Ask us a Question". A link for "More Details..." is also present. The horse's name, "WESTON PARK MILAN G-10402", is displayed in green, with a star icon to its right. Below the name, it says "Section B Gelding". A red-bordered box highlights the text "Ends 15 Nov 2023, 22:00 GMT+11". At the bottom, it shows "7 Bids" in a red box, the current bid amount "A\$4,050" in large green text, and the bid increment "increment A\$50". A green "Login" button is at the very bottom.

The Auction has 2-minute Bid Extensions enabled, so if any Bids are placed in the last 2 minutes of the Lot's countdown, 2 minutes will be added to the Countdown and the messaging will be updated with the "Overtime Bidding" text:

Overtime bidding ends in 00:02:15

**Your bid is currently the highest**

**3 Bids** A\$1,000  
increment A\$50

Bid A\$1,050

Once Bidding activity on a Lot has ceased and the Countdown concludes, that Lot will close. The Highest Bidder on that Lot will see this message:

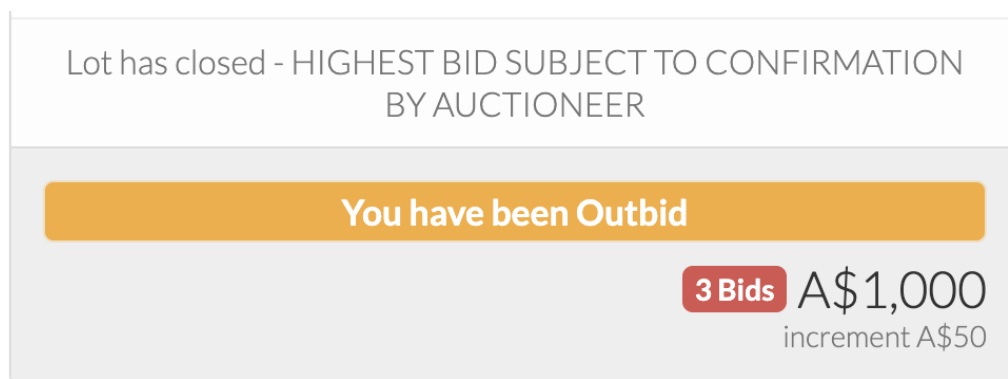

Lot has closed - HIGHEST BID SUBJECT TO CONFIRMATION  
BY AUCTIONEER

**Your bid is currently the highest**

**3 Bids** A\$1,000

Whilst any Underbidders will see this:

Lot has closed - HIGHEST BID SUBJECT TO CONFIRMATION  
BY AUCTIONEER

**You have been Outbid**

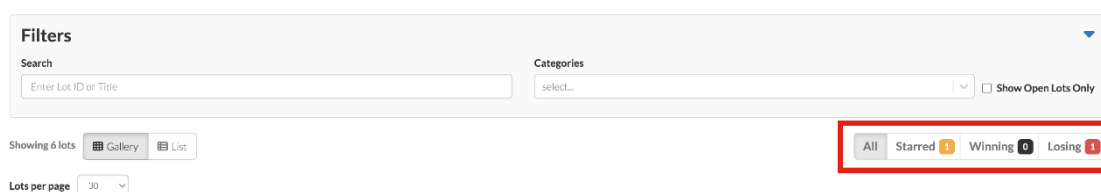

**3 Bids** A\$1,000  
increment A\$50

The image shows a notification banner with a light grey background. At the top, it says 'Lot has closed - HIGHEST BID SUBJECT TO CONFIRMATION BY AUCTIONEER'. Below this is a prominent orange button that says 'You have been Outbid'. To the right of the button, there is a red pill-shaped badge with '3 Bids' in white, followed by 'A\$1,000' in a large font and 'increment A\$50' in a smaller font below it.

Bidders are encouraged to place their Bids as early as possible and if they can't attend the closing of the Auction, they can also place an Autobid and the Portal will be on their behalf up to or prior to their set Autobid Amount should anyone try to Outbid them.

At the moment, all Lots are scheduled to close at 10pm AEDT (Subject to Bid Extension), but each Lot will have its own Countdown Clock displayed just above the Bid Button and Current Highest Bid.

Bidders are encouraged to more easily keep track of the Lots they're bidding on by clicking on the Starred Filter, just below the Filters bar here:

The image shows a 'Filters' bar with a search input, a categories dropdown, and a 'Show Open Lots Only' checkbox. Below the filters are view options for 'Showing 6 lots' with 'Gallery' and 'List' buttons, and a 'Lots per page' dropdown set to '30'. At the bottom right, there is a filter bar with buttons for 'All', 'Starred 1', 'Winning 0', and 'Losing 1'. The 'Starred 1' button is highlighted with a red border.

Should any Bidders need assistance, Webtron will be on support for the closure of the Auction and Bidders can contact Webtron's Technical Support Number on 1300 667 153.

### For lots that do not meet reserve at auction close:

Where the Lot fails to reach the Reserve Price during the Auction, the Lot is automatically enrolled in the WPCSA "After Auction" for a period of 7 days from the conclusion of the auction. During this 7-day period, the WPCSA will liaise with the highest bidder (if any) in an attempt to negotiate a sale for the Seller. Any Lots not sold within the After-Auction period may be treated as withdrawn from the Platform.
